Childhood Environments"

## Relevant Experience

### Jones Ferry River Access Boathouse (Holyoke, MA)

This riverfront community building included meeting and changing rooms and featured high performance envelope including a green roof. Noteworthy environmental aspects included a super-insulated building envelope, efficient heating and energy recovery systems, solar hot water heating and vegetated roofs on low slope segments.

### Dining Hall at Ferry Beach (Saco, Maine)

New restaurant/dining facility for an ocean front conference center.

### Champlain Valley Union High School (Hinesburg, VT)

Expansion and renovations to Champlain Valley Union High School including biomass heating. 2006 winner in Efficiency Vermont Better Building By Design.

### Barre City Place (Barre, Vermont)

Barre City Place is a mixed use, four story, 75, 000sf building on North Main Street opposite Depot Square. The building includes historic detailing including brick and local granite detailing to fit in Barre's historic downtown district. Included in the building is a rehab gym.

### Blue Cross Blue Shield of Vermont (Montpelier, VT)

Design of new office addition (approximately 46,000 sf) and expansion and renovations to foodservice/cafeteria space (2,700 sf) as well as renovation of executive office.

### Springfield State Office Building (Springfield, VT)

Renovation of two historic mill buildings in downtown Springfield into regional offices for nine State agencies.
